EDUCATION

Istanbul Gelişim University

B.Sc. in Computer Engineering

Avclar, Istanbul

Oct 2022 – Sep 2026

Istanbul University

Associate Degree in Graphic Design

Istanbul

Sep 2023 – Jul 2025

EXPERIENCE

Frontend Web Developer

Solviba - Web Development Agency

Feb 2025 – Present

Istanbul, Turkey

- Built responsive, SEO-friendly React/Next.js applications using TypeScript, Tailwind CSS, and styled-components.
- Translated complex Figma designs into pixel-accurate, functional components (Figma-to-code); managed database architecture, authentication, and real-time data synchronization with Supabase.
- Streamlined the development workflow and version control process using Git and GitHub.

Intern

ISKI (Istanbul Water and Sewerage Administration)

Jul 2026 – Aug 2026

Istanbul, Turkey

- Recovered a corporate FortiGate firewall from a failed OS via Bootloader/TFTP and rebuilt it from scratch, writing interface-based routing, NAT, Layer-7 filtering, and QoS security policies.
- Configured VLANs and trunk links on Cisco switches and performed hardware-level password recovery in ROMMON mode, assembling a multi-layer lab network topology.
- Analyzed web traffic generated via an IIS/Classic ASP server using Wireshark to identify cleartext security risks; observed enterprise-scale IPsec VPN tunneling, SIEM correlation, and incident response processes.

Technical Affairs Member

IGU IEEE Student Branch

Nov 2023 – Present

Avclar, Istanbul

- Contributed to technical projects and initiatives within the IEEE Student Branch; served on the organizing committee for the IGU x Minima Hackathon and the 20th BILMOK (Computer Engineering Students Congress).

Game Developer Intern

Paper Pigeon Games

Jul 2025 – Aug 2025

Balat, Istanbul

- Contributed to mobile game development in Unity, focusing on core gameplay mechanics and UI integration; created optimized 3D assets in Blender and performed QA testing.

PROJECTS

Portfolio | JavaScript, Tailwind, React, Vercel

- Personal portfolio website built with JavaScript, Tailwind, and React. www.burakkutlu.com

WhoDat | Next.js, Supabase, TypeScript

- Interactive multiplayer game built with Next.js, Supabase, and TypeScript. whodat.burakkutlu.com

SKILLS

Programming Languages: C/C++, C#, HTML5, CSS3, Python, JavaScript, TypeScript

Frameworks & Platforms: npm, Next.js, React, Tailwind CSS, Vite, Supabase, Git/GitHub

Design & Tools: Figma, Blender, Unity 3D

Languages: English (Professional Working Proficiency)

CERTIFICATES

IBM – Cybersecurity Fundamentals (Jul 2024)

IBM – Working in a Digital World: Professional Skills (Jul 2024)

Microsoft – Introduction to Programming With C# (Mar 2025)

Microsoft – Foundations of Coding Front-End (Mar 2025)
